

From our family to yours, **Welcome to Mountain Ridge Dentistry!** We are grateful for the opportunity to positively impact your dental health.

Our doors opened in September 2018 to provide excellent and ethical dental care in an ever-changing industry and growing community. We are a family owned and patient-focused practice, utilizing the latest in modern dental technology to provide you with the most comfortable and effective care available.

It's important to us that you understand all of your options, so you can confidently make informed treatment decisions. If you are ever unsure of your dental health or options, please inform us right away.

We realize the cost of healthcare is often a barrier between patients and the treatment they need. If you don't have insurance (just as most people don't), we are happy to enroll you in one of our in-house insurance plans to ensure your costs are market competitive and kept as low as possible. If you have an employer-provided dental insurance plan, congratulations! You are one of the lucky ones, and we take many insurances for your convenience.

Our entire team looks forward to serving you. We take your trust seriously, and will do our best to exceed your expectations.

Welcome to the family!

Love,

The Mountain Ridge Dentistry Team
